# \_\_\_\_\_company

SCARABEO, founded in 1974, initially specialised in the manufacture of porcelain bathroom accessories. In the space of a few years, thanks to its reliability and commitment, the company firmly secured its position in both the national and international markets. The high quality of its products enabled the company to collaborate with some of the most renowned international manufacturers of bathroom fixtures. The constant search for new products has always been a distinguishing feature of the company, which – over the years – has consistently proven its ability to keep track of the evolving demands of the market. This continuous evolution eventually led to the introduction of new washbasin ranges, and the company now offers an extremely broad and ever-expanding range of products. The company's philosophy is geared towards making the washbasin the focus of the bathroom and dedicating all its energies to creating new ranges and models for satisfying an increasingly demanding market, while putting the emphasis on quality – rather than quantity – and the uniqueness of its products.

# artigianali

In Civita Castellana, the ceramic processing industry has ancient origins dating back to the pre-Roman era. Over the course of the centuries, the processing techniques and production processes have evolved to reach high standards of excellence. With its ceramic products, Scarabeo aims to recover the techniques and various processing phases which have been so important for the city's heritage. All items are constantly checked and inspected in order to correct any imperfections and guarantee their quality and beauty; as a result, they are receiving growing appreciation at a national and international level.

## ADVICE FOR THE CLEANING AND THE MAINTENANCE OF THE BATHROOM

All our products have been realized to be long-lasting. For this purpose, we would like to give you some advice to keep your bathroom suite always intact. A soft sponge is ideal for cleaning your bathroom suite. Do not use in any case abrasive, caustic or aggressive substances. For a better cleanliness and to remove possible residuals of limescale or soap it is advisable to clean your bathroom suite in depth periodically with a non-abrasive cleaner. A regular washing with lukewarm water and soap and an immediate drying with a soft rag soon after the use will be sufficient to keep your bathroom suite perfect.

# MOON

"Ho ricercato un oggetto semplice, elegante, sinuoso e senza forma ispirandomi a semplici elementi urbani. Ho pensato ad un elemento adattabile al frenetico nostro consumismo ma fisicamente ricercato. Un prodotto dalle forme accoglienti ma generose, in previsione di un nuovo minimalismo umano".

"I envisaged a simple, elegant, sinuous and shapeless object inspired by simple urban elements. The element I conceived is physically sophisticated yet suited to our frenetic consumerism. A product with large, embracing forms that reflects a new human minimalism".

*Made in Italy*  
DESIGN MASSIMILIANO BRACONI

Nasce TEOREMA 2.0, il lavabo con un'anima sottile dalle dimensioni generose. Un inconsueto e piacevole contrasto tra l'ampiezza del bacino e la leggerezza dei suoi bordi che misurano soltanto pochi millimetri. Un design elegante ed essenziale che coniuga bellezza e praticità. Adatto ad ogni tipologia di abitazione, racchiude in sé quelle caratteristiche funzionali dettate dalle proprie dimensioni che lo rendono un oggetto dalla massima fruibilità anche nelle case dotate di un solo bagno.

The time has come for TEOREMA 2.0, the large-size washbasin with a slim core. The wide bowl offers an appealing and unusual contrast to the light edges, which are only a few millimetres thick. Its elegant, sober design reflects the merging of beauty and practicality. Suitable for any type of home environment, its dimensional characteristics make it a highly practical item that be installed even in homes having a single bathroom.

# \_SOFT

Rigoroso e pulito, il lavabo Soft mette in evidenza la competenza dell'azienda nella lavorazione della ceramica che qui raggiunge un elevato livello di definizione. Il bordo netto e sottile si pone in netto contrasto con la delicatezza della vasca, caratterizzata da linee morbide che accompagnano l'acqua nel suo fluire.

With its rigorous and clean design, the Soft washbasin highlights the company's ability in use of ceramic, which achieves a high level of definition here. The clean and extremely thin edge stands in sharp contrast with the delicate and smooth lines of the basin which accompany the flow of water.

EMO DESIGN

# \_HUNG

Hung è funzionalità ed ottimizzazione degli spazi. Disegnato da Emo design, questo mini lavabo in ceramica dalla forma rettangolare ospita nella sua struttura principale un foro portasciugamani, mettendo a disposizione tutto il necessario in pochissimo spazio.

Hung is the ideal and functional solution for optimising space. Designed by Emo design, this rectangular mini ceramic washbasin also incorporates a towel rail hole in its main structure ensuring everything is within easy reach in an extremely small space.

*Made in Italy*

Il mini lavabo Cube, disegnato da Emo design, appare come un cubo di ceramica sospeso. Un lavabo dalla forte connotazione estetica che nonostante le dimensioni ridotte non dimentica la funzionalità, presentando una buona profondità della vasca che asseconda il lavaggio delle mani.

The Cube mini washbasin, designed by Emo design, appears like a suspended ceramic cube. The washbasin reveals a distinct aesthetic dimension without renouncing functionality, regardless of its compact dimensions, hand washing is facilitated by the rather large depth of the bowl.

## \_NEXT

Dall'aspetto semplice e dall'indiscussa funzionalità Next è la soluzione ideale per abitazioni in stile moderno ed informale. Un ritorno alle forme semplici ed essenziali per il lavabo disegnato da Giovanni Calisti per Scarabeo. Può essere montato ad appoggio, ad incasso o semincasso, con molti colori a disposizione dal tradizionale bianco, al Pergamon, al Metal, ecc...

Due to its simple appearance and unquestioned functionality, Next is the ideal solution for homes furnished in a modern and informal style. This washbasin, designed by Giovanni Calisti for Scarabeo, marks a return to simple, fundamental shapes. It may be surface-mounted, recessed or semi-recessed and is available in a wide range of colours, from traditional white to Pergamon and Metal, etc...

SCARABEO®

MOAI

Dal mistero dell'isola di Pasqua nasce la linea di lavabi Moai. Simili a monoliti di pietra levigati dalla forza dell'acqua, Moai con le sue linee morbide e sinuose riesce a coniugare l'estetica naturale delle cose e l'innovazione del design contemporaneo.

The Moai range of washbasins takes its inspiration from the mysterious Easter Island. With its soft and shapely lines reminiscent of the stone monoliths polished by the force of the water, Moai successfully combines its natural appearance with an innovative and contemporary design.

Made in Italy

Sardars

Thanks to the wide offer of decorations, beginning from total white bringing out shapes to geometric, evocative or ironic decorations (like the small fish jumping out of water) it is fit for public places like gyms, restaurants, pubs and schools, but even for child bathrooms or for those who love daring with an informal style in their own bathroom.

Mizu, disegnato da EMO design, è un lavabo in ceramica dalla raffinata eleganza. Rappresenta una proposta innovativa che ripensa l'architettura di questo oggetto, qui pensato come un volume composto da più componenti che definiscono la "scocca esterna". In essa il taglio della calotta superiore che disegna la grafica dell'oggetto, svolge la primaria funzione di drenare l'acqua all'interno, dove si trova lo scarico.

Mizu, designed by EMO design, is an elegant ceramic washbasin. It represents an innovative solution that rethinks the object's traditional architecture. Here the washbasin is thought like a volume composed of many components that define the external shell. The central cut of the superior cap, which designs the object's graphic, drains the water in the bowl, where the drain hole is hidden.
